

School

2nd month's exam

Name

7th Grade

Sunday

20

The oceans, the **atmosphere**, the hot and the cold parts of the planet, deserts and rainforests depend on the **Earth's** climate. But our **climate** is a complex system that depends on the sun.

Man's machines, cars, planes, trains and computers emit **carbon dioxide** which doesn't allow the heat from the sun to leave. When there's too much carbon dioxide in the atmosphere, the Earth's **temperature** goes up. This is called "**global warming**".

We must slow down global warming.

Q (1): Read the text then answer the questions : (5)

1. How is man responsible for global warming?

2. In your opinion, what will happen if we don't try to slow down global warming?

3. There are bold words in the text, write the ones which match these definitions?

- a. _____ : the planet we live on.
- b. _____ : the gas produced when humans and animals breathe out.
- c. _____ : the mixture of gases that surrounds the Earth.
- d. _____ : a measure of how hot or cold a place or thing is.
