I. Reading:

(8 Marks)

1. Read the following text then answer the questions:

Emily Cummins began inventing when she was young. She enjoyed making toys from waste materials that she found in her grandfather's garden. As she got older, she came up with an idea to help millions of people- a small, portable fridge to keep medicine or food clean, dry and cool. Emily's fridge is ideal because it doesn't use electricity and people can build it using old car parts and other objects from their homes. Emily didn't produce the fridge for profit. She gave the design to people in Africa for free. Emily has won many awards, including Woman of the year in 2009 CE and a "Save-the-planet" award in 2008 CE.
